ANNUAL FINANCIAL STATEMENTS for the year ended 30 June 2013

AUDIT REPORT

The 2012/13 Audit Report was not available when the Annual Financial Statements were approved and will be attached hereto as Annexure "A" when received after the completion of the statutory audit.

REPORT OF THE CHIEF FINANCIAL OFFICER

1. INTRODUCTION

It gives me great pleasure to present the Annual Financial Statements of Ga-Segonyana Municipality at 30 June 2013.

These Annual Financial Statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003). The standards and pronouncements that form the GRAP Reporting Framework for the 2012/13 financial period is set out in Directive 5 issued by the ASB on 11 March 2009.

The Statement of Financial Position at 30 June 2013 indicates an increase in Net Assets, and an increase in both Non-current Liabilities and Current Liabilities.

The increase in Net Assets is ascribed primarily as a result of the surplus generated on the operating account. The increase in Non-current Liabilities is primarily as a result of the increases in Retirement Benefit Liabilities and Long-service Benefits and increase in the provision for the rehabilitation of the municipalty's landfill site. The increase in Current Liabilities is primarily as a result of the increase in Creditors and Unspent Conditional Grants.

2. KEY FINANCIAL INDICATORS

The following indicators are self-explanatory. The percentages of expenditure categories are well within acceptable norms and indicate good governance of the funds of the municipality.

2.1 Financial Statement Ratios:

INDICATOR	2013	2012
Surplus / (Deficit) before Appropriations	3,794,633	7,648,785
Surplus / (Deficit) at the end of the Year	938,076,924	934,282,291
Expenditure Categories as a percentage of Total Expenses:		
Employee Related Costs	21.13%	19.12%
Remuneration of Councillors	2.31%	2.26%
Collection Costs	0.00%	0.00%
Depreciation and Amortisation	19.10%	17.23%
Impairment Losses	3.53%	4.71%
Repairs and Maintenance	7.58%	6.70%
Interest Paid	1.68%	2.45%
Bulk Purchases	19.19%	17.49%
Contracted Services	0.00%	0.00%
Grants and Subsidies Paid	0.00%	0.00%
General Expenses	24.68%	30.04%
Current Ratio:		
Trade Creditors Days	19	16
Debtors from Exchange Transactions Days	46	47

REPORT OF THE CHIEF FINANCIAL OFFICER

2.2 Performance Indicators:

INDICATOR	2013	2012
Borrowing Management:		
Capital Charges to Operating Expenditure Borrowing to Total Capital Assets	2.53% 2.87%	3.89% 3.04%
Safety of Capital:	0.050/	0.400/
Gearing	2.95%	3.10%
Liquidity:		
Current Ratio	1.45	1.86
Liquidity Ratio	0.36	0.52
Capital Expenditure Management:		
Capital Expenditure on Infrastructure to Total Capital Expenditure	22.41%	0.00%
Capital Funding from Borrowings to Capital Grants, Subsidies & Donations	0.00%	0.00%
Revenue Management:		
Current Debtors Collection Rate	97.32%	97.64%
Outstanding Debtors to Revenue	9.96%	9.79%
Creditors Management:		
Creditors to Cash and Investments	69.59%	60.21%
Financial Viability:		
Debt Coverage	26.95	17.12
Outstanding Service Debtors to Revenue	16.81%	16.50%
Cost Coverage	0.08	0.08

3. OPERATING RESULTS

Details of the operating results per segmental classification of expenditure are included in Appendix "D", whilst operational results per category of expenditure, together with an explanation of significant variances of more than 10% from budget, are included in Appendix "E (1)".

The services offered by Ga - Segonyana Municipality can generally be classified as Rates and General, Economic and Trading Services and are discussed in more detail below.

The overall operating results for the year ended 30 June 2013 are as follows:

DETAILS	Actual 2012/13 R	Actual 2011/12 R	Percentage Variance %	Budgeted 2012/13 R	Variance actual budgeted %
Income:					
Opening surplus / (deficit)	934,282,291	925,309,888	0.97	-	100.00
Operating income for the year	281,771,790	251,806,266	11.90	261,441,792	7.78
Appropriations for the year	-	-	-	-	-
	1,216,054,081	1,177,116,154	3.31	261,441,792	365.13
Expenditure:

Sundry transfers	49,247	(1,323,618)	(103.72)	-	100.00
Closing surplus / (deficit)	938,076,924	934,282,291	0.41	(2,641,466)	(35,613.49)
•	1,216,103,328	1,177,116,154	3.31	261,441,792	365.15
	_	_			

REPORT OF THE CHIEF FINANCIAL OFFICER

3.1 Rates and General Services:

Rates and General Services are all types of services rendered by the municipality, excluding those listed below. The main income sources are Assessment Rates and Sundry Fees levied.

DETAILS	Actual	Actual	Percentage	Budgeted	Variance actual/
	2012/13	2011/12	Variance	2012/13	budgeted
	R	R	%	R	%
Income	79,231,010	77,482,181	2.26	104,330,231	(24.06)
Expenditure	116,876,967	118,404,802	(1.29)	141,610,359	(17.47)
Surplus / (Deficit)	(37,645,957)	(40,922,621)	(8.01)	(37,280,128)	0.98
Surplus / (Deficit) as % of total income	(47.51)%	(52.82)%		(35.73)%	

3.2 Housing Services:

Housing Services are services rendered by the municipality to supply housing to the community and includes the rental of units owned by the municipality to public and staff. The main income source is the levying of Housing Rentals.

DETAILS	Actual 2012/13 R	Actual 2011/12 R	Percentage Variance %	Budgeted 2012/13 R	Variance actual/ budgeted %
Income Expenditure	- 4,360	-	100.00	- 400	990.03
Surplus / (Deficit)	(4,360)	-	100.00	(400)	990.03
Surplus / (Deficit) as % of total income	(100.00)%	-		(100.00)%	

3.3 Waste Management Services:

Waste Management Services are services rendered by the municipality for the collection, disposal and purifying of waste (refuse and sewerage). Income is mainly generated from the levying of fees and tariffs determined by the council.

Actual 2012/13 R	Actual 2011/12 R	Percentage Variance %	Budgeted 2012/13 R	Variance actual/ budgeted %
37 265 829	30 886 478	20.65	31 817 780	17.12

	55,526,861	192,720,059	(137,193,198)	116,848,490	(61,321,629)

Details of the results per segmental classification of capital expenditure are included in Appendix "C", together with a cryptic explanation of significant variances of more than 10% from budget, are included in Appendix "E (2)".

5. ACCUMULATED SURPLUS

The balance of the Accumulated Surplus as at 30 June 2013 amounted to R938,076,924 (30 June 2012: R934,282,291) and is made up as follows:

Accumulated Surplus 938,076,924 938,076,924

6. LONG-TERM LIABILITIES

The outstanding amount of Long-term Liabilities as at 30 June 2013 was R27,679,212 (30 June 2012: R28,936,775).

7. RETIREMENT BENEFIT LIABILITIES

The outstanding amount of Retirement Benefit Liabilities as at 30 June 2013 was R9,544,840 (30 June 2012: R7,742,489).

This liability is in respect of continued Health Care Benefits for employees of the municipality after retirement being members of schemes providing for such benefits. This liability is unfunded.

Refer to Note 21 for more detail.

8. NON-CURRENT PROVISIONS

Non-current Provisions amounted R12,027,131 as at 30 June 2013 (30 June 2012: R10,017,645) and is made up as follows:

Provision for Long-term Service

2,414,716 9,612,415

Provision for Rehabilitation of Land-fill Sites

12,027,131

These provisions are made in order to enable the municipality to be in a position to fulfil its known legal obligations when they become due and payable.

REPORT OF THE CHIEF FINANCIAL OFFICER

Refer to Note 22 for more detail.

REPORT OF THE CHIEF FINANCIAL OFFICER

9. CURRENT LIABILITIES

Current Liabilities amounted to R 50 506 626 (2012 - R 32 966 542) and is made up as follows:

Consumer Deposits	Note 15	2,430,997
Provisions	Note 16	477,860
Payables from Exchange Transactions	Note 17	12,644,226
Payables from Non-exchange Transactions	Note 18	9,525,600
Unspent Conditional Grants and Receipts	Note 19	22,694,232
Current Portion of Long-term Liabilities	Note 20	2,733,711_
		50,506,626

Current Liabilities are those liabilities of the municipality due and payable in the short-term (less than 12 months). There is no known reason as to why the municipality will not be able to meet its obligations.

Refer to the indicated Notes for more detail.

10. PROPERTY, PLANT AND EQUIPMENT

The net value of Property, Plant and Equipment was R962,002,060 as at 30 June 2013 (30 June 2012: R949,897,500).

Refer to Note 10 and Appendices "B and E (2)" for more detail.

11. INTANGIBLE ASSETS

The net value of Intangible Assets were R88,501 as at 30 June 2013 (30 June 2012: R93,488).

Intangible Assets are assets which cannot physically be identified and verified and are in respect of computer software obtained by the municipality in order to be able to fulfil its duties as far as service delivery is concerned.

Refer to Note 11 and Appendix "B" for more detail.

12. INVESTMENT PROPERTY

The net value of Investment Properties were R704,000 as at 30 June 2013 (30 June 2012: R704,000).

Investment Property is property held to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of operations.

Refer to Note 12 and Appendix "B" for more detail.

13. HERITAGE ASSETS

The net value of Heritage Assets were R1,584,840 as at 30 June 2013 (30 June 2012: R1,601,700).

Heritage Assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Refer to Note 13 and Appendix "B" for more detail.

REPORT OF THE CHIEF FINANCIAL OFFICER

14. LONG-TERM RECEIVABLES

Long-term Receivables of R432,040 at 30 June 2013 (30 June 2012: R251,086) is made up as follows:

Housing Loans	251,086
Commitments	451,687_
	702,773
Less: Short-term portion included in Current Assets	270,733_
	432,040

The increase in the amount for Long-term Receivables is due to the increased amount of debt arrangements entered into with consumer debtors.

Refer to Note 14 for more detail.

15. CURRENT ASSETS

Current Assets amounted R73,023,292 as at 30 June 2013 (30 June 2012: R61,397,968) and is made up as follows:

Inventories	Note 2	21,527,047
Receivables from Exchange Transactions	Note 4	13,975,252
Receivables from Non-exchange Transactions	Note 5	4,769,705
VAT Receivable	Note 6	14,308,831
Cash and Cash Equivalents	Note 7	18,170,006
Operating Lease Assets	Note 8	1,717
Current Portion of Long-term Debtors	Note 14	270,734_
		73,023,292

The increase in the amount for Current Assets is mainly due to the increased amount held in Bank and Cash Equivalents as well as an increase in VAT refundable as at 30 June 2013.

Refer to the indicated Notes for more detail.

16. INTER-GOVERNMENTAL GRANTS

The municipality is dependent on financial aid from other government spheres to finance its annual capital programme. Operating grants are utilised to finance indigent assistance and provision of free basic services.

Refer to Notes 19 and 24, and Appendix "F" for more detail.

17. EVENTS AFTER THE REPORTING DATE

Full details of all known events, if any, after the reporting date are disclosed in Note 49.

18. EXPRESSION OF APPRECIATION

We are grateful to the Mayor, members of the Executive Committee, Councillors, the Municipal Manager and Heads of Departments for the support extended during the financial year. A special word of thanks to all staff in the Finance Department, for without their assistance these Annual Financial Statements would not have been possible.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

1. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared on an accrual basis of accounting and are in accordance with the historical cost convention, except where indicated otherwise.

The financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP), as approved by the Minister of Finance, including any interpretations, guidelines and directives issued by the Accounting Standards Board and the Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

1. 1 CHANGES IN ACCOUNTING POLICY AND COMPARABILITY

Accounting Policies have been consistently applied, except where otherwise indicated below:

For the years ended 30 June 2012 and 30 June 2013 the municipality has adopted the accounting framework as set out in point 1 above. The details of any resulting changes in accounting policy and comparative restatements are set out below.

The municipality changes an accounting policy only if the following instances:
(a) is required by a Standard of GRAP; or

(b) results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity's financial position, financial performance or cash flow.

1. 2. CRITICAL JUDGEMENTS, ESTIMATIONS AND ASSUMPTIONS

In the application of the municipality's accounting policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimations that management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial Statements:

1. 2.. 1 Revenue Recognition

Accounting Policy 10.2 on Revenue from Exchange Transactions and Accounting Policy 10.3 on Revenue from Non-exchange Transactions describes the conditions under which revenue will be recorded by the management of the municipality.

1. BASIS OF PRESENTATION (continued)

1. 2. CRITICAL JUDGEMENTS, ESTIMATIONS AND ASSUMPTIONS (continued)

1. 2.. 1 Revenue Recognition (continued)

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from non-exchange transactions. In particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services is rendered, whether the service has been rendered. Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

1. 2.. 2 Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. Accounting Policy 7.1 on *Financial Assets Classification* and Accounting Policy 7.2 on *Financial Liabilities Classification* describe the factors and criteria considered by the management of the municipality in the classification of financial assets and liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in GRAP 104: Financial Instruments.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

1. 2.. 3 Impairment of Financial Assets

Accounting Policy 7.4 on *Impairment of Financial Assets* describes the process followed to determine the value by which financial assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of financial assets as set out in GRAP 104: *Financial Instruments* and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that the impairment of financial assets recorded during the year is appropriate.

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors. The total increase in estimation of the impairment of trade and other receivables from exchange transactions amounted to R 7 370 654 and that of trade and other receivable from non exchange transactions to R2 442 957

1. 2.. 4 Useful lives of Property, Plant and Equipment, Intangible assets and Investment property

As described in Accounting Policies 2.3, 4.2 and 5.2 the municipality depreciates/ amortises its property, plant and equipment, investment property and intangible assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use. The useful lives of assets are based on management's estimation. Management considered the impact of technology, availability of capital funding, service requirements and required return on assets in order to determine the optimum useful life expectation, where appropriate.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

1. 2.. 5 Impairment: Write down of Property, Plant and Equipment, Investment property, Intangible asses, Heritage assets and Inventories

Accounting Policy 7 on Impairment of assets and Accounting Policy 4.2 on Intangible assets - Subsequent Measurement, Amortisation and Impairment and Accounting Policy 8.2 on Inventory - Subsequent measurement describes the conditions under which non-financial assets are tested for potential impairment losses by the management of the municipality. Significant estimates and judgements are made relating to PPE impairment testing, Intangible assets impairment testing and write down of Inventories to the lowest of Cost and Net Realisable Values (NRV).

In making the above-mentioned estimates and judgement, management considered the subsequent measurement criteria and indicators of potential impairment losses as set out in GRAP 21: Impairment of Cash generating Assets and GRAP 26: Impairment of non-Cash generating Assets. In particular, the calculation of the recoverable service amount for PPE and intangible assets and the NRV for inventories involves significant judgment by management. During the year the estimated impairments to Property plant and equipment amounted to R 59 481, whilst no impairments were made to intangible assets or inventory.

1. 2.. 6 Water inventory

The estimation of the water stock in the reservoirs is based on actual measurements in the current year as well as the measurement of water via electronic level sensors (in the prior financial year), where the level indicates the depth of the water in the reservoir, which is then converted into volumes based on the total capacity of the relevant reservoir. Furthermore the length and width of all pipes in the municipality's reticulation network are also taken into account in determining the volume of water on hand at year-end. Refer to accounting policy 8.2.

1. 2.. 7 Defined Benefit Plan Liabilities

As described in Accounting Policy 12, the municipality obtained actuarial valuations of its defined benefit plan liabilities. The defined benefit obligations of the municipality that were identified are Post-retirement Health Benefit Obligations and Long-service Awards. The estimated liabilities are recorded in accordance with the requirements of IAS 19. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in Notes 21 and 22 to the Annual Financial Statements.

1. 2.. 8 Provisions and contingent liabilities

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities as set out in note 22 to the Annual Financial Statements respectively. Provisions are discounted where the effect of discounting is material.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

1. 2.. 9 Budget information

Deviations between budget and actual amounts are regarded as material differences when a 10% deviation exists. All material differences are explained in the notes to the annual financial statements

1. 3 PRESENTATION CURRENCY

The Annual Financial Statements are presented in South African Rand, rounded off to the nearest Rand, which is the municipality's functional currency.

1. 4 GOING CONCERN ASSUMPTION

The Annual Financial Statements have been prepared on a going concern basis.

1. BASIS OF PRESENTATION (continued)

1. 5 OFFSETTING

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP

1. 6 FFFCTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 18 Segment Reporting - issued March 2005

GRAP 20 Related Party Disclosures (Revised)

GRAP 25 Employee Benefits - issued December 2009

GRAP 105 Transfers between entities under common control - issued November 2010

GRAP 106 Transfers between entities not under common control - issued November 2010

GRAP 107 Mergers - issued November 2010

The Minister of Finance announced that the application of GRAP 21, GRAP 23, GRAP 24, GRAP 26, GRAP 103 and GRAP 104 will be effective for period starting after 1 April 2012. All other standards as listed above will only be effective when a date is announced by the Minister of Finance.

The ASB Directive 5 paragraph 29 sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy, as set out in he standard of GRAP 3 on Accounting Policies, Changes in Accounting Estimates and Errors.

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board, International Financial Reporting Standards or Generally Accepted Accounting Principles. Where a standard of GRAP has been issued, but is not yet in effect, an entity may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event before applying paragraph .12 of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

Management has considered all of the above-mentioned GRAP standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

2 PROPERTY, PLANT AND EQUIPMENT

2 1 Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

Property, plant and equipment are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

When significant components of an item of property, plan and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

2 2 Subsequent Measurement

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the entity and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all property plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is included in surplus or deficit when the compensation becomes receivable.

2 3 Depreciation

Land is not depreciated as it is regarded as having an unlimited life. Depreciation on assets other than land is calculated on cost, using the straight line method, to allocate their cost or revalue amounts to their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item shall be depreciated separately. The depreciation rates are based on the following estimated useful lives.

Depreciation only commences when the asset is available for use, unless stated otherwise.

	Years		Years
Infrastructur			
Roads and Paving	4 - 100	Buildings	30
Refuse	15 - 100		
Electricity	5 - 50	Other	
Water	4 - 100	Specialist Vehicles	10 - 20
Sewerage	5 - 100	Other Vehicles	5 - 20
Housing	5 - 30	Office Equipment	3 - 20
Landfill Sites	15	Furniture and Fittings	3 - 20
		Bins and Containers	5
		Specialised Plant and	
Community		Equipment	10 - 15
		Other items of Plant and	
Recreational Facilities	5 - 30	Equipment	3 - 20
Security	5 - 30	Emergency equipment	5 - 20
Halls	5 - 30	Computer equipment	5 - 20
Libraries	5 - 30		
Parks and gardens	5 - 30		
Other assets Finance lease assets	5 - 30		
- Office equipment	3 - 5		
- Other assets	3 - 5		

The assets' residual values, estimated useful lives and depreciation method are reviewed annually, and adjusted prospectively if appropriate, at each reporting date.

Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimate unless expectations differ from the previous estimate.

2 4 Incomplete Construction Work

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

2 5 Finance Leases

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

Assets capitalised under finance leases are depreciated over their expected useful lives on the same basis as PPE controlled by the entity or where shorter, the term of the relevant lease if there is no reasonable certainty that the municipality will obtain ownership by the end of the lease term.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

2 PROPERTY, PLANT AND EQUIPMENT (continued)

2 6 Land

Land is not depreciated as it is deemed to have an indefinite useful life.

2 7 Infrastructure Assets

Infrastructure Assets are any assets that are part of a network of similar assets. Infrastructure assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure assets are treated similarly to all other assets of the municipality in terms of the asset management policy.

2 8 Derecognition of property, plant and equipment

The carrying amount of an item of property, plant and equipment is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal

The gain or loss arising from the Derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated depreciation and accumulated impairment losses) and the disposal proceeds is included in the Statement of Financial Performance as a gain or loss on disposal of property, plant and equipment.

3 Heritage Assets

An heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance, and is held and preserved indefinitely for the benefit of present and future generations.

3 1 Initial Recognition

The cost of an item of heritage assets is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Heritage assets are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of heritage assets is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

3 2 Subsequent Measurement

Subsequent expenditure relating to heritage assets is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the entity and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all heritage assets are measured at cost, less accumulated impairment losses. Heritage assets are not depreciated.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

3 3 Derecognition of Heritage assets

The carrying amount of an item of heritage assets is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the Derecognition of an item of heritage assets is included in surplus or deficit when the item is derecognised.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated impairment losses) and the disposal proceeds is included in the Statement of Financial Performance as a gain or loss on disposal of heritage assets.

Transitional provisions

The municipality utilised the transitional provisions under Directive 4, which allows 3 year for the measurement of heritage assets

4. INTANGIBLE ASSETS

4. 1 Initial Recognition

Identifiable non-monetary assets without physical substance are classified and recognised as intangible assets. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when the following criteria are fulfilled:

- it is technically feasible to complete the intangible asset so that it will be available for use;
- management intends to complete the intangible asset and use or sell it;
- there is an ability to use or sell the intangible asset;
- it can be demonstrated how the intangible asset will generate probable future economic benefits;
 - adequate technical, financial and other resources to complete the development and to use or sell the intangible asset
- are available; and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, not exceeding five years. Development assets are tested for impairment annually, in accordance with GRAP 21 / GRAP 26.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

4. INTANGIBLE ASSETS

4. 2 Subsequent Measurement, Amortisation and Impairment

After initial recognition, an intangible asset are carried at its cost less any accumulated amortisation and any accumulated impairment losses.

Expenditure on an intangible item that was initially recognised as an expense shall not be recognised as part of the cost of an intangible asset at a later date.

In terms of GRAP 102, intangible assets are distinguished between internally generated intangible assets and other intangible assets. It is further distinguished between indefinite or finite useful lives. Amortisation is charged on a straight-line basis over the intangible assets' useful lives (when the intangible asset is available for use), which are estimated to be between 3 to 5 years, the residual value of assets with finite useful lives is zero, unless an active market exists. Where intangible assets are deemed to have an indefinite useful life, such intangible assets are not amortised, however such intangible assets are subject to an annual impairment test. The useful lives per category of intangible assets are detailed below:

Intangible asset	Years
Software	3 - 5

Intangible assets are annually tested for impairment, including intangible assets not yet available for use. Where items of intangible assets have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified except where the impairment reverses a previous revaluation. The impairment loss is the difference between the carrying amount and the recoverable amount.

The estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively as a change in accounting estimate in the Statement of Financial Performance.

4. 3 Derecognition

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the net disposals proceeds and the carrying value and is recognised in the Statement of Financial Performance.

5 INVESTMENT PROPERTY

5 1 Initial Recognition

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed investment property is the cost at date of completion.

Based on management's judgement, the following criteria have been applied to distinguish investment properties from owner occupied property or property held for resale:

- All properties held to earn market-related rentals or for capital appreciation or both and that are not used for administrative purposes and that will not be sold within the next 12 months are classified as Investment Properties;
- Land held for a currently undetermined future use. (If the Municipality has not determined that it will use the land as owner-occupied property or for short-term sale in the ordinary course of business, the land is regarded as held for capital appreciation);
- A building owned by the entity (or held by the entity under a finance lease) and leased out under one or more operating leases (this will include the property portfolio rented out by the Housing Board on a commercial basis on behalf of the municipality); and
- A building that is vacant but is held to be leased out under one or more operating leases on a commercial basis to external parties.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

The following assets do not fall in the ambit of Investment Property and shall be classified as Property, Plant and Equipment, Inventory or Non-Current Assets Held for Sale, as appropriate:

- Property intended for sale in the ordinary course of operations or in the process of construction or development for such sale:
- Property being constructed or developed on behalf of third parties;
 - Owner-occupied property, including (among other things) property held for future use as owner-occupied property, property held for future development and subsequent use as owner-occupied property, property occupied by employees such as housing for personnel (whether or not the employees pay rent at market rates) and owner-occupied property awaiting disposal:
- Property that is leased to another entity under a finance lease;
- Property held to provide a social service and which also generates cash inflows, e.g. property rented out below market rental to sporting bodies, schools, low income families, etc.; and
- Property held for strategic purposes or service delivery.

5 INVESTMENT PROPERTY (continued)

5 2 Subsequent Measurement - Cost Model

Investment property is measured using the cost model. Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost, using the straight-line method over the useful life of the property, which is estimated at 30 years. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

The gain or loss arising on the disposal of an investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

5 3 Derecognition

An investment property shall be derecognised (eliminated from the statement of financial position) on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal

6 IMPAIRMENT OF ASSETS

The entity classifies all assets held with the primary objective of generating a commercial return as cash-generating assets. All other assets are classified as non-cash-generating assets.

6 1 Impairment of Cash generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the individual asset.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arms length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset"

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment loss is recognised for cash-generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

• to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

6 2 Impairment of Non-Cash generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalue asset is treated as a revaluation decrease.

An impairment loss is recognised for non cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

7 FINANCIAL INSTRUMENTS

The municipality has various types of financial instruments and these can be broadly categorised as either financial assets, financial liabilities or residual interests in accordance with the substance of the contractual agreement. The municipality only recognises a financial instrument when it becomes a party to the contractual provisions of the instrument.

7 1 Financial Assets - Classification

A financial asset is any asset that is a cash or contractual right to receive cash.

In accordance with GRAP 104 the Financial Assets of the municipality are classified as follows into the three categories allowed by this standard:

Financial asset at amortised cost are non derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months, which are classified as non-current assets. Financial asset at amortised cost are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition Financial Assets are measured at amortised cost, using the effective interest rate method less a provision for impairment.

Financial assets measured at fair value are financial assets that meet either of the following conditions:

- (a) derivatives;
- (b) combined instruments that are designated at fair value
- (c) instruments held for trading.
- (d) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
- (e) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Financial assets measured at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

The municipality has the following types of financial assets as reflected on the face of the Statement of Financial Position or in the notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Short-term Investment Deposits – Call	Financial asset at amortised cost
Bank Balances and Cash	Financial asset at amortised cost
Long-term Receivables	Financial asset at amortised cost
Consumer Debtors	Financial asset at amortised cost
Other Debtors	Financial asset at amortised cost
Investments in Fixed Deposits	Financial asset at amortised cost

7 FINANCIAL INSTRUMENTS (continued)

7 1 Financial Assets - Classification (continued)

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: Financial asset at amortised cost.

7 2 Financial Liabilities - Classification

A financial liability is a contractual obligation to deliver cash or another financial asset to another entity.

There are three main categories of *Financial Liabilities*, the classification determining how they are measured. Financial liabilities may be measured at:

- (i) Financial liabilities measured at fair value or
- (ii) Financial liabilities measured at amortised cost
- (iii) Financial liabilities measured at cost

The municipality has the following types of financial liabilities as reflected on the face of the Statement of Financial Position or in the notes thereto:

Type of Financial Liabilities	Classification in terms of GRAP 104
Long term Liabilities	Financial liability at amortised cost
Other Creditors	Financial liability at amortised cost
Bank overdraft	Financial liability at amortised cost
Short-term Loans	Financial liability at amortised cost
Current portion of Long-Term	Financial liability at amortised cost

Financial liabilities that are measured at fair value financial liabilities that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of financial instruments where there is recent actual evidence of short-term profiteering or are derivatives)

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

7 3 Initial and Subsequent Measurement

7 3. 1 Financial Assets:

Financial asset at amortised cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. Subsequently, these assets are measured at amortised cost using the Effective Interest Method less any impairment, with interest recognised on an effective yield basis.

Trade and other receivables (excluding Value Added Taxation, prepayments and operating lease receivables), loans to Municipality entities and loans that have fixed and determinable payments that are not quoted in an active market are classified as Financial asset at amortised cost.

Financial Assets measured at fair value are initially measured at fair value plus directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in equity until the investment is derecognised, at which time the cumulative gain or loss recorded in equity is recognised in the statement of financial performance, or determined to be impaired, at which time the cumulative loss recorded in equity is recognised in the statement of financial performance.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

7 3. 2 Financial Liabilities:

Financial liabilities measured at fair value

Financial liabilities measured at fair value are stated at fair value, with any resulted gain or loss recognised in the Statement of Financial Performance.

Financial Liabilities measured at amortised cost

Any other financial liabilities are classified as "Other financial liabilities" (All payables, loans and borrowings are classified as other liabilities) and are initially measured at fair value, net of transaction costs. Trade and other payables, interest bearing debt including finance lease liabilities, non-interest bearing debt and bank borrowings are subsequently measured at amortised cost using the effective interest rate method. Interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Prepayments are carried at cost less any accumulated impairment losses.

7 4 Impairment of Financial Assets

Financial assets, other than those measured at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

Financial assets carried at amortised cost

Accounts receivables encompasses long term debtors, consumer debtors and other debtors.

Initially Accounts Receivable are valued at fair value and subsequently carried at amortised cost using the effective interest rate method. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year-end. Bad debts are written off the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of accounts receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made in accordance with GRAP 104 whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the financial asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as receivable.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets carried at amortised cost with the exception of consumer debtors, where the carrying amount is reduced through the use of an allowance account. When a consumer debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

Impairment of Financial Assets measured at cost

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

7 5 Derecognition of Financial Assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

7 6 Derecognition of Financial Liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

8 INVENTORIES

8 1 Initial Recognition

Inventories comprise current assets held for sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as inventory are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

8 2 Subsequent Measurement

Consumable stores, raw materials, work-in-progress and finished goods

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value (net amount that an entity expects to realise from the sale on inventory in the ordinary course of business). In general, the basis of determining cost is the weighted average cost of commodities. If inventories are to be distributed at no charge or for a nominal charge they are valued at the lower of cost and current replacement cost.

Water inventory

Water is regarded as inventory when the municipality purify water with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes etc.). However, water in dams, that are filled by natural resources and that has not yet been treated, and is under the control of the municipality but can not be measured reliably as there is no cost attached to the water, and it is therefore not recognised in the statement of financial position.

The basis of determining the cost of water purchased and not yet sold at statement of financial position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the inventory to its present location and condition, net of trade discounts and rebates.

Unsold properties

Unsold properties are valued at the lower of cost and net realisable value on a weighted average cost basis. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs, if this relates to development.

Redundant and slow-moving inventories

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

9 NON-CURRENT ASSETS HELD-FOR-SALE

9 1 Initial Recognition

Non-current Assets and Disposal Groups are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

9 2 Subsequent Measurement

Non-current Assets (and Disposal Groups) classified as held-for-sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

The gain or loss on the eventual sale of non-current assets held for sale is included in the Statement of Financial Performance as gain or loss on sale of assets. The gain or loss on the eventual sale of non-current assets held for sale, is calculated on the difference between the net disposal proceeds and the carrying amount of the individual asset or the disposal group.

10 REVENUE RECOGNITION

10 1 General

Revenue, excluding value-added taxation where applicable, is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided. Revenue is recognised when it is probable that future economic benefits or service potential will flow to the municipality and these benefits can be measured reliably, except when specifically stated otherwise.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the municipality's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

The municipality recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the municipality and when specific criteria have been met for each of the municipalities' activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The municipality bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Furthermore services rendered are recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

10 2 Revenue from Exchange Transactions

10 2. 1 Service Charges

Service charges relating to solid waste, sanitation and sewage are levied in terms of the approved tariffs.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements.

Service charges from sewerage and sanitation are based on the type of service and the number of sewer connections on all developed property, using the tariffs approved by Council and are levied monthly.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

10 2. 2 Pre-paid Electricity

Revenue from the sale of electricity pre-paid meter cards are recognised at the point of sale. An adjustment for an unutilised portion is made at year-end based on the average consumption history.

10 2. 3 Finance income

Interest earned on investments is recognised in the Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

10 2. 4 Tariff Charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

10 2. 5 Income from Agency Services

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

10 2. 6 Sale of Goods (including Houses)

Revenue from the sale of goods is recognised when all the following conditions have been met:

- The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor
 effective control over the goods sold.
- The amount of revenue can be measured reliably.
- · It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

10 2. 7 Rentals

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

10 2. 8 Dividends

Dividends are recognised on the date that the municipality becomes entitled to receive the dividend in accordance with the substance of the relevant agreement, where applicable.

10 2. 9 Royalties

Royalties are recognised on an accrual basis in accordance with the substance of the relevant agreement. Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

10 3 Revenue from Non-exchange Transactions

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

10 3. 1 Rates and Taxes

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

10 3. 2 Fines

Revenue from the issuing of fines is recognised when it is probable that the economic benefits or service potential will flow to the entity and the amount of the revenue can be measured reliably.

Fines consist of spot fines and summonses. There is uncertainty regarding the probability of the flow of economic benefits or service potential in respect of spot fines as these fines are usually not given directly to an offender. Further legal processes have to be undertaken before the spot fine is enforceable. In respect of summonses the public prosecutor can decide whether to waive the fine, reduce it or prosecute for non-payment by the offender.

An estimate is made for revenue from spot fines and summonses based on past experience of amounts collected. Where a reliable estimate cannot be made of revenue from summonses, the revenue is recognised when the public prosecutor pays the cash collected over to the entity.

10 3. 3 Public contributions

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the condition, a liability is recognised.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

10 3. 4 Government Grants and receipts

Equitable share allocations are recognised in revenue at the start of the financial year if no time-based restrictions exist.

Conditional Grants and receipts

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs are recognised in the Statement of Financial Performance in the period in which they become receivable.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

10 3. 5 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain. Such revenue is based on legislated procedures.

11 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.

The best estimate of the expenditure required to settle the present obligation is the amount that an entity would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the entity, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances, Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfill it - this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

Provision for Restructuring cost

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The municipality has a detailed formal plan for the restructuring identifying at least:
- the business or part of a business concerned;

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

- the principal locations affected;
 - the location, function, and approximate number of employees who will be compensated for terminating their services;
- the expenditures that will be undertaken;
- when the plan will be implemented; and;
- (b) The municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

Environmental rehabilitation provisions

Estimated long-term environmental provisions, comprising of the rehabilitation and landfill site closure, are taking into account current technological, environmental and regulatory requirements. The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

12 EMPLOYEE BENEFITS

12 1 Short-term Employee Benefits

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits, which are only recognised when the specific event occurs.

The municipality treats its provision for leave pay as an accrual.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

12 2 Post employment benefits

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post employment plans.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

12 2 1 Defined Contribution Plans

A **defined contribution plan** is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

12 3 Defined Benefit Plans

A defined benefit plan is a post- employment benefit plan other than a defined contribution plan.

12 3. 1 Post-retirement Health Care Benefits:

The municipality has an obligation to provide Post-retirement Health Care Benefits to certain of its retirees. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the projected unit credit method, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out every year by independent qualified

Actuarial gains or losses are accounted for using the "corridor method". Actuarial gains and losses are eligible for recognition in the Statement of Financial Performance to the extent that they exceed 10 per cent of the present value of the gross defined benefit obligations in the scheme at the end of the previous reporting period. Actuarial gains and losses exceeding 10 per cent are spread over the expected average remaining working lives of the employees participating in the scheme.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight-line basis over the vesting period.

12 3. 2 Long-service Allowance

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The projected unit credit method has been used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the statement of financial performance.

12 3. 3 Provincially-administered Defined Benefit Plans

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds (refer to Note 49 of the Annual Financial Statements for details). The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

13. LEASES

Lease Classification

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

13. 1 The Municipality as Lessee

Finance leases

Where the Municipality enters into a finance lease, Property, plant and equipment or Intangible Assets subject to finance lease agreements are capitalised at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. Corresponding liabilities are included in the Statement of Financial Position as Finance Lease Liabilities. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to Derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases

The municipality recognises operating lease rentals as an expense in the statement of financial performance on a straight-line basis over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability

13. LEASES

13. 1 The Municipality as Lessee (continued)

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

13. 2 The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Operating lease rental income is recognised on a straight-line basis over the term of the relevant lease.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Municipality determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Municipality the right to control the use of the underlying asset. At inception or upon reassessment of the arrangement, the Municipality separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Municipality concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Municipality's incremental borrowing rate.

14 BORROWING COSTS

The municipality capitalises borrowing costs incurred that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset only when the commencement date for capitalisation is on or after 1 July 2009 for low capacity municipalities, while all other borrowing costs incurred (including borrowing cost incurred on qualifying assets where the commencement date for capitalisation is prior to 1 July 2009) are recognised as an expense. To the extent that an entity borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the entity shall determine the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate shall be the weighted average of the borrowing costs applicable to the borrowings of the entity that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that an entity capitalises during a period shall not exceed the amount of borrowing costs it incurred during that period.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

The municipality ceases to capitalise borrowing costs when substantially all the activities necessary to prepare the qualifying assets for its intended use has been completed. Where the construction of the qualifying asset is completed in parts and each part is capable of being used while construction continues on other parts, the entity shall cease capitalising borrowing costs when it completes substantially all the activities necessary to prepare that part.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

15 GRANTS - IN - AID

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

receive any goods or services directly in return, as would be expected in a purchase or sale transaction;

expect to be repaid in future; or

expect a financial return, as would be expected from an investment.

These transfers are recognised in the Statement of Financial Performance as expenses in the period that the events giving rise to the transfer occurred.

16 VALUE ADDED TAXVALUE ADDED TAXVALUE ADDED TAXVALUE ADDED

The Municipality is registered with SARS for VAT on the payments basis, in accordance with Sec15(2)(a) of the Value-Added Tax Act No 89 of 1991.

17 UNAUTHORISED EXPENDITUREUNAUTHORISED EXPENDITUREUNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003). All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

18 IRREGULAR EXPENDITUREIRREGULAR EXPENDITUREIRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998) or is in contravention of the Municipality's or Municipal Entities' supply chain management policies. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as an expense in the Statement of Financial Performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

19 FRUITLESS AND WASTEFUL EXPENDITUREFRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the Council it is treated as an asset until it is recovered or written off as irrecoverable.

20 CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND ERRORS

Changes in accounting policies that are effected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable. Refer to note 37 for details of changes in accounting policies.

Changes in accounting estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the notes to the annual financial statements where applicable.

Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable. Refer to Note 38 to the Annual Financial Statements for details of corrections of errors recorded during the period under review.

21 RELATED PARTIES

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Management is regarded as a related party and comprises the councillors, Executive Mayor, Mayoral Committee members, Municipal Manager, executive directors and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

22 EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial Statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the Annual Financial Statements.

23 FOREIGN CURRENCIES

Transactions in foreign currencies are translated to the functional currency of the entity at exchange rates at the dates of the transactions

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost or fair value in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in surplus or deficit.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Cash flows arising from transactions in a foreign currency are recorded in Rand's by applying, to the foreign currency amount, the exchange rate between the Rand and the foreign currency at the date of the cash flow.

24 COMPARATIVE INFORMATION

24 1 Prior year comparatives

When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are reclassified. The nature and reasons for the reclassification are disclosed.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE

24 2 Budget Information

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the accounting policies adopted by the Council for the preparation of these financial statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the notes to the annual financial statements giving firstly reasons for overall growth or decline in the budget and secondly motivations for over or under spending of more than 10 % on line items. The annual budget figures included in the financial statements are for the Municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated development plan. The budget is approved on an accrual basis by nature classification. The approved budget covers the period from 1 July 2012 to 30 June 2013.

25 CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent liabilities represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in the notes to the annual financial statements.

26 TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES

The costs of internal support services are transferred to the various services and departments to whom resources are made available

27 CAPITAL COMMITMENTS

Items are classified as commitments where the Municipality commits itself to future transactions that will normally result in the outflow of resources.

Capital commitments are not recognised in the statement of financial position as a liability but are included in the disclosure notes in the following cases:

- Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP.
- Approved but not yet contracted commitments, where the expenditure has been approved and the contract has yet to be awarded or is awaiting finalisation at the reporting date.
- Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources.
- Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed in the disclosure notes to the financial statements.
- Other commitments for contracts that are non-cancellable or only cancellable at significant cost contracts should relate to something other than the business of the municipality.

Notes to the user:

- (1) Approved Budget: The Final Budget approved by council and submitted to National Treasury.
- (2) Final Budget: The Final Amended Budget used by the municipality, for which council approval was not obtained (i.e. adjustments/virements allowed without council approval).

 (3) If the Approved Budget (normally the Adjustment Budget) is the same as the Final Budget, only column need to be used.

Notes to the user:

- (1) Approved Budget: The Final Budget approved by council and submitted to National Treasury.
- (2) Final Budget: The Final Amended Budget used by the municipality, for which council approval was not obtained (i.e. adjustments/virements allowed without council approval).
- (3) If the Approved Budget (normally the Adjustment Budget) is the same as the Final Budget, only column need to be used.

Financial Performance: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Final Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Performance are explained below:

Proper procedures to budget for Financial Position have not been developed and implemented. Furthermore, the system utilised does not carry budget for Financial Position and no budgetary control can be performed.

Fines:

Budgeted on payment basis and not accrual basis

Government Grants and Subsidies Received:

Acip and Housing grants not gazetted and were not provided in the budget. Also refer to the reasons provided for variances with regards to other revenue.

Public Contributions and Donations:

Assets were donated to the municipality from the Department of Environmental Affairs, which was not budgeted for.

Rental of Facilities and Equipment:

The facility not utilised as anticipated due to the condition of the halls.

Interest Earned - External Investments:

Provision was not made for call investment on the budget

Interest Earned - Outstanding Debtors:

Interest levied during the year not sufficient.

Other Income:

Budgeted other income included operational grants. The actual income was however included in grant revenue received during the year.

Depreciation and Amortisation:

Did not provide sufficiently in the budget

Impairment Losses:

Provision for doubtful debts was made according to GRAP principals, i.e. based on expected cash flows.

Finance Costs:

DBSA loan of R60 million was not approved due to old loans that had to be resolved and the provision was made to pay interest on that loan

General Expenses:

Expenditure incurred in respect of Acip and Housing grants received but not gazetted and could not be budgeted for

Notes to the user:

- (1) Approved Budget: The Final Budget approved by council and submitted to National Treasury.
- (2) Final Budget: The Final Amended Budget used by the municipality, for which council approval was not obtained (i.e. adjustments/virements allowed without council approval).

 (3) If the Approved Budget (normally the Adjustment Budget) is the same as the Final Budget, only column need to be used.

1. GENERAL INFORMATION

Ga - Segonyana Municipality (the municipality) is a local government institution in Kuruman, North Cape Province, and is one of three local municipalities under the jurisdiction of the John Taola Gaetsewe District Municipality. The addresses of its registered office and principal place of business are disclosed under "General Information" included in the Annual Financial Statements and in the introduction of the Annual Report. The principal activities of the municipality are disclosed in the Annual Report and are prescribed by the Municipal Finance Management Act (MFMA).

2. INVENTORIES

Consumables Store	993,683	840,284
Maintenance Materials	2,865,257	2,108,341
Spare Parts	52,565	58,269
Property Stock	17,580,000	18,077,400
Water - at cost	95,024	65,565
Sub total	21,586,529	21,149,858
Less: Obsolete Stock	59,481_	
Total Inventories	21,527,047	21,149,858

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

The cost of water production for the year amounted to R9.52 per kilolitre (2012: R 6.76 per kilolitre).

The cost of Inventories recognised as an expense during the year was R 5,387,278 (2012: R 4,409,746).

No Inventories have been pledged as collateral for Liabilities of the municipality.

3. NON-CURRENT ASSETS HELD-FOR-SALE

Property Held-for-Sale - at cost

Net Non-current Assets Held-for-Sale

3.1 Property Held-for-Sale

During the year under review, management made a resolution to dispose of movable assets with a carrying value of R 452 469. The disposal dicision was bases on the ageing / economic viablilty of the assets. The scheduled date for the disposal will be on 13 September 2013. No impairment loss was recognised on reclassification of the property as held-for-sale nor at 30 June 2013

4. RECEIVABLES FROM EXCHANGE TRANSACTIONS

As at 30 June 2013

Service Debtors:	26,937,288	20,066,950
Electricity	8,469,683	6,016,777

Less: Provision for Impairment	-25,743,593	-18,551,230
Total Receivables from Exchange Transactions	13,975,252	12,231,872

2013 2012 R R

Receivables from Exchange Transactions are billed monthly, latest end of month. No interest is charged on Receivables until the end of the following month. Thereafter interest is charged at a rate determined by council on the outstanding balance.

The municipality receives applications that it processes. Deposits are required to be paid for all electricity and water accounts opened. There are no consumers who represent more than 5% of the total balance of Receivables.

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

The municipality did not pledge any of its Receivables as security for borrowing purposes.

				20,1 10,000	. 5,55 . ,200

In determining the recoverability of Receivables, the municipality has placed strong emphasis on verifying the indigent status of consumers. Provision for impairment of Receivables has been made for all consumer balances outstanding based on the payment ratio over 12 months per service type. No further credit provision is required in excess of the Provision for Impairment.

No provision has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Consumer Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

2013 2012 R R

4.3 Derecognition of Financial Assets

No Financial Assets have been transferred to other parties during the year.

2013 2012 R R

		2013 R	2012 R
	5.2 Reconciliation of Provision for Impairment		
	Balance at beginning of year Impairment Losses recognised Balance at end of year	8,668,273 2,442,957 11,111,230	5,269,387 3,398,886 8,668,273
	The Provision for Impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.		
	In determining the recoverability of a Rates Assessment Debtor and Receivables from Non-exchange Transactions, the municipality considers any change in the credit quality of the Rates Assessment Debtor from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the management believe that there is no further credit provision required in excess of the Provision for Impairment.		
	No Provision for Impairment has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Rates Assessment Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.		
6.	VAT RECEIVABLE		
	Vat Receivable	14,308,831	6,781,307
	The comparative year has been restated due to the correction of prior period errors (Refer to note 38)		
	Vat is payable on the receipts basis. Only once payment is reveived from debtors, VAT is paid over to SARS.		
	No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.		
7.	CASH AND CASH EQUIVALENTS

The municipality does not have any overdrawn current account facilities with its banker and therefore does not incur interest on overdrawn current accounts. Interest is earned at different rates per annum on favourable balances.

The ABSA Kuruman Resevoir account was created by the municipality in order to receive promised donations in future for the repair of the water reservoir

The TMT account is used for the deposit of all camera fines received. The payment for the service provider fees is also made from this account.

7.3 Cash and Cash Equivalents Cash Floats and Advances 6,520 Total Cash on hand in Cash Floats, Advances and Equivalents The municipality did not pledge any of its Cash and Cash Equivalents as collateral for its financial liabilities. 8 OPERATING LEASE RECEIVABLES	- 6,428
Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13. In respect of non-cancellable operating leases the following assets have been recognised:	- 6,428
Balance at beginning of year 306	6,428
Operating Lease Revenue recorded 42,491 Operating Lease Revenue effected -41,080	-6,121
Total Operating Lease Receivables 1,717	306
The comparative year has been restated due to the correction of prior period errors (Refer to note 38)	
8.1 Leasing Arrangements	
The Municipality as Lessor: Operating Leases relate to property owned by the municipality with lease terms of between 1 and 50 (2012: 1 to 50) years, with, where applicable, an option to extend. The lessee does not have an option to purchase the property at the expiry of the lease period.	
Property rentals - municipal houses, land and buildings and open spaces These rentals are classified as contingent rentals due to uncertain lease periods and escalation which are in accordance with CPI and therfore unknown for future periods. These operating lease payments are therefore not subject to straight-lining and it is impracticable to disclose the future minimum lease payments expected to be received for each of the following periods as required by GRAP 13:	
- no later than one year - later than one year and not later than five years	
- later than five years.	
Property rentals - Antenna space	
The lease contracts of these rentals are for specific periods and are making provision for annual lease escalations. The operating lease payments are therefore subject to straight-lining.	
8.2 Amounts receivable under Operating Leases	
At the reporting date the following minimum lease payments were receivable under non-cancellable operating leases for municipal houses, land and buildings and antenna spaces, which are receivable as follows:	
Up to 1 year 66,870	131,183
2 to 5 years 524 More than 5 years 111	67,382 122
Total Operating Lease Arrangements 67,504	198,687
The impact of charging the escalations in operating leases on a straight-line basis over the term of the lease resulted in an increase of R 1,411 (2012: increase of R 306) in rental income during the current year.	
9 CURRENT PORTION OF LONG-TERM RECEIVABLES	
Housing Loans 30,101 Debtors with Arrangements 240,632	28,320 9,885
Total Current Portion of Long-term Receivables 270,734	38,205

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

The municipality has taken advantage of the transitional provisions in Directive 4 from the Accounting Standards Board with the implementation of GRAP 103. The municipality is currently in a process of identifying all Heritage Assets and have it valued in terms of GRAP 103 and it is expected that this process will be completed for inclusion in the 2014/15 Annual Financial Statements.

Heritage Assets have been restated to correctly classify amounts held for Heritage Assets in terms of GRAP 103, previously included in Property, Plant and Equipment. Refer to Note 37 on "Change in Accounting Policy" for details of the restatement.

Heritage assets consists of the following:

 Classification
 Description

 Municipal jewelery
 Mayoral chain

 Exibits
 Stone collection in voyer of municipal building

 Recreational parks and conservation areas
 The Eye - natural fountain and adjacent erven Nature Reserve (Billy Duvenhage)

 Historial monuments and graves
 Graves on corner of Oasis and School Streets

Less: Current Portion transferred to Current Receivables:-	38,205
Housing Loans	28,320
Debtors with Arrangements	9,885
Total Long-term Receivables	251,086

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

DEBTORS WITH ARRANGMENTS

Arrear amounts on services are capitalised on completion of a formal agreement or upon being handed over to attorneys for collection. These arrear amounts are then paid to the municipality in monthly instalments over a period not exceeding 62 months. No interest is charged on these amounts where the stipulations of the agreement are adhered to.

HOUSING LOANS

As from 01 January 2006 no loan agreements are entered into for the sale of houses. The outstanding loans will be recovered over the remaining period of the individual loan agreements entered into.

The municipality does not hold deposits or any other security for its Long-term Receivables.

No Long-term Receivables have been pledged as security for the municipality's financial liabilities.

The management of the municipality is of the opinion that the carrying value of Long-term Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values.

15 CONSUMER DEPOSITS

Electricity	2,430,997	2,192,025
Total Consumer Deposits	2,430,997	2,192,025
Guarantees held in lieu of Elecricity Deposits	-	-

Consumer Deposits are paid by consumers on application for new electricity connections. The deposits are repaid when the electricity connections are terminated. In cases where consumers default on their accounts, the municipality can utilise the deposit as payment for the outstanding account.

No interest is paid on Consumer Deposits held.

17 PAYABLES FROM EXCHANGE TRANSACTIONS Trade Creditors Retentions Debtors paid in advance Fair Value Adjustment Total Payables Payables from Exchange transactions have been restated to correctly classify amounts due for Creditors not accrued for previously. Refer to Note 38 on "Correction of Error" for details of the restatement.	7,283,702 4,685,605 824,264 -149,345 12,644,226	5,863,920 3,645,490 852,496 -99,485 10,262,421

The average credit period on purchases is 30 days from the receipt of the invoice, as determined by the MFMA, except when the liability is disputed. No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors that the municipality deals with. The municipality has policies in place to ensure that all payables are paid within the credit timeframe.

The municipality did not default on any payment of its Creditors. No terms for payment have been renegotiated by the municipality.

18 PAYABLES FROM NON-EXCHANGE TRANSACTIONS		
Payments Received In Advance	5,786,181	2,102,848
Staff Bonuses	1,195,209	1,738,660
Staff Leave	1,942,390	1,318,979
Other Sundry Creditors	5,408	5,408
Creditors - Insurance	596,413	-
Total Payables	9,525,600	5,165,895

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

Staff Leave accrue to the staff of the municipality on an annual basis, subject to certain conditions. The provision is an estimate of the amount due at the reporting date.

No credit period exists for Payables from Non-exchange Transactions, neither has any credit period been arranged. No interest is charged on outstanding amounts.

The municipality did not default on any payment of its Creditors. No terms for payment have been renegotiated by the municipality.

Fair value of trade and other payables

Financial liabilities are measured at amortised cost using the effective interest rate methord. A net present value calculation of accounts payable and credit purchases was therefore performed

19 UNSPENT CONDITIONAL GRANTS AND RECEIPTS

19.1 Conditional Grants from Government	22,694,232	12,471,113
National Government Grants	14,097,039	10,847,104
Provincial Government Grants	8,597,193	1,624,009

The comparative year has been restated due to the correction of prior period errors (Refer to note 38) The Unspent Conditional Grants and Receipts are invested in investment accounts until utilised.

See Note 24 for the reconciliation of Grants from Government . The municipality complied with the conditions attached to all grants received to the extent of revenue recognised. No grants were withheld.

Refer to Appendix "F" for more detail on Conditional Grants.

20 LONG-TERM LIABILITIES

Annuity Loans Finance Lease Liabilities	28,322,071 2,090,852	29,318,308 1,916,914
Sub-total	30,412,923	31,235,222
Less: Current Portion transferred to Current Liabilities:-	2,733,711	2,298,448
Annuity Loans	2,112,523	1,862,902
Finance Lease Liabilities	621,189	435,545
Total Long-term Liabilities (Neither past due, nor impaired)	27,679,212	28,936,775

Long-term Liabilities have been restated to correctly classify amounts to be included in Long-term Liabilities. Refer to Note 38 on "Correction of Error" for details of the restatement. The management of the municipality is of the opinion that the carrying value of Long-term Liabilities recorded at amortised cost in the Annual Financial Statements approximate their fair values.

The fair value of Long-term Liabilities was determined after considering the standard terms and conditions of agreements entered into between the municipality and the relevant financing institutions.

Refer to Appendix "A" for more detail on Long-term Liabilities.

2013 2012 R R

11,997

11,997

20.1 Annuity loans

Annuity loans are repaid over periods varying from 5 to 20 (2012: 5 to 20) years and at interest rates varying from 5 % to 15 % (2012:5 % to 15 %)per annum. Annuity loans are not secured.

20.2 Obligations under Finance Lease Liabilities

The Municipality as Lessee:

Finance Leases relate to Property, Plant and Equipment with lease terms not more than 5 years (2012: 5 years). The effective interest rate on Finance Leases is between 9% and 49.8% (2012: 9% and 12.07%).

The risks and rewards of ownership in respect of the vehicles will transfer to the municipality at the conclusion of the agreement.

Ownership of the office equipment are not transferred to the municipality at the conclusion of the lease agreements. The municipality's obligations under Finance Leases are secured by the lessors' title to the leased assets.

The obligations under Finance Leases are as follows:

	Minimum Lease Payments		Present Value of Minimum Lease	
	2013	2012	2013	2012
	R	R	R	R

Retirement Benefit Liabilities have been restated to agree with comparative figures 2013 actuarial valuation. Refer to Note 38 on "Correction of errors" for details of the		

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out as at 30 June 2013 by ARCH Actuarial Consulting, a member of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The members of the Post-employment Health Care Benefit Plan are made up as follows:

In-service Members (Employees) In-service Non-members (Employees)	149 110	120 not included
Continuation Members (Retirees, widowers and orphans)	6	5
Total Members	265	125
The liability in respect of past service has been estimated as follows:		
In-service (employee) members	7,354,905	5,983,289
In-service (employees) non-members	479,859	390,370
Continuation (retiree and widow) members	1,893,280	1,540,202
Total Liability	9,728,044	7,913,861

The municipality makes monthly contributions for health care arrangements to the following Medical

- Bonitas

21

- Hosmed
- Keyhealth
- LA Health
- Samwumed

The Current-service Cost for the year ending 30 June 2013 is estimated to be R 691,602, whereas

22.1 Long Service Awards

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

The most recent actuarial valuations of the present value of the defined benefit obligation was carried out at 30 June 2013 by ARCH Actuarial Consulting, a member of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 248 (2012: 241) employees were eligible for Long-service bonusses.

The Current-service Cost for the year ending 30 June 2013 is estimated to be R 274,137, whereas the cost for the ensuing year is estimated to be R 309,369 (30 June 2012: R 195,569 and R 274,137 respectively).

The municipality expects to make a contribution of R 294,656 (2012: R 223,891) to the defined

2013 2012 R R

22.2 Rehabilitation of Land-fill Sites

The municipality has an obligation to rehabilitate its land-fill site in terms of its licence stipulations. The net present value of the rehabilitation cost of land-fill sites has been determined as at 30 June 2013 by a technical specialist, Adv. C.P. Herbts, (Mineral- and Environmental Laws Consultant). The provision is the best estimate of the net present value of future rehabilitation costs of the land-fill site to restore the site at the end of their useful lives. The payment dates of the total closure and rehabilitation are uncertain, but are currently expected to be in 2018 (within the next 5 years). Provision has been made for the net present value of this cost, using an average cost of borrowing interest rate of 9.55%. The provision will be determined on an annual basis and actual rehabilitation costs will be debited against the provision.

The increase during the year ended 30 June 2013 in the discounted amount arising from the passage of time, amounted to R 1,319,074 (2012: R 1,205,635).

Major assumptions concerning future events

The cost estimate for construction works to be performed for the closure and rehabilitation of an existing disposal site include the following assumptions made by the technical specialist:

- a) The consolidation of "old" waste in the cell and filling of voids with builders rubble or other waste permissible for disposal at the site.
- b) Doming the entire site in such a way to prevent the formation of pools due to rain, to ensure free surface runoff of rain water.
- c) Capping the site in accordance with the capping design requirements as stipulated in the Minimum Requirements for Closure for the various classes of disposal sites;
- d) Rehabilitating the site in accordance with the end-use plan e.g. grassing, sport field etc.

Less: Income Foregone			1,063	1,366
Total Property Rates			16,889	14,823

Property Rates are levied on the value of land and improvements, which valuation is performed every four years. The last valuation came into effect on 1 July 2009. A general valuation has been performed during the financial year and will be applied with effect 1 July 2014. An application made to the MEC requesting the current valuation roll to be extended by one financial year was approved.

Interim valuations are processed yearly to take into account changes in individual property values due to alterations and subdivisions.

An general rate is applied as follows to property valuations to determine property rates:

An general rate is applied as follows to property valuations to determine property rates:

Residential Properties: 0,8933 c/R (2011/12: 0,8427 c/R) Business Properties: 1,7865 c/R (2011/12: 1,6854 c/R) Agricultural Properties: 0,2233 c/R (2011/12: 0,21074 c/R)

The amounts disclosed above for **Electricity and Water Losses** are in respect of costs incurred in the general management of the municipality and not directly attributable to a specific service or class of expense (See Note 41.9).

The comparative year has been restated due to the correction of prior period errors (Refer to note 38)

No other extra-ordinary expenses were incurred.

37 CHANGE IN ACCOUNTING POLICY

The municipality adopted no Accounting Standards for the first time during the financial year 2012/13 in order to comply with the basis of preparation of the Annual Financial Statements as disclosed in Accounting Policy 1.

The municipality adopted the following Accounting Standards for the first time during the financial year in order to comply with the basis of preparation of the Annual Financial Statements as disclosed in Accounting Policy 1.

- GRAP 21 Impairment of Non-cash-generating Assets
- GRAP 23 Revenue from Non-exchange Transactions
- GRAP 24 Presentation of Budget Information in Financial Statements
- GRAP 26 Impairment of Cash-generating Assets
- GRAP 103 Heritage Assets
- GRAP 104 Financial Instruments

37.1 GRAP 21 - Impairment of Non-cash-generating Assets

The Accounting Standard for *Impairment of Non-cash-generating Assets* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2013 in terms of GRAP 21.

The municipality has developed Accounting Policies to fully comply with GRAP 21 (*Impairment of Non-cash-generating Assets*). Previously the municipality used the principles set out in IPSAS 21 to account for impairment of non-cash-generating assets. GRAP 21 is applied prospectively and there is no need for restatement of prior year figures as the principles in GRAP 21 and IPSAS 21 are similar.

37.2 GRAP 23 - Revenue from Non-exchange Transactions

The Accounting Standard for *Revenue from Non-exchange Transactions* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2013 in terms of GRAP 23.

The municipality has developed Accounting Policies to fully comply with GRAP 23 (*Revenue from Non-exchange Transactions*). Previously the municipality used the principles set out in GAMAP 9 to account for revenue from non-exchange transactions. GRAP 23 is applied prospectively and there is no need for restatement of prior year figures.

37.3 GRAP 24 - Presentation of Budget Information in the Financial Statements

The Accounting Standard for *Presentation of Budget Information in the Financial Statements* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2013 in terms of GRAP 24.

The municipality has developed Accounting Policies to fully comply with GRAP 24 (*Presentation of Budget Information in the Financial Statements*). Previously the municipality used the principles set out in GRAP 1 to present budget information. GRAP 24 is to be applied prospectively. To fully comply with the requirements set out in this Standard, the municipality have included the following budget information:

- Budget Statement
- Appendix E1: Reconciliation of Budgeted Financial Performance by Standard Classification
- Appendix E2: Reconciliation of Budgeted Financial Performance by Municipal Vote
- Appendix E3: Reconciliation of Budgeted Financial Performance
- Appendix E4: Reconciliation of Budgeted Capital Expenditure
- Appendix E5: Reconciliation of Budgeted Cash Flows

2013	2012
R	R

37.4 GRAP 26 - Impairment of Cash-generating Assets

The Accounting Standard for *Impairment of Cash-generating Assets* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2013 in terms of GRAP 26.

The municipality has developed Accounting Policies to fully comply with GRAP 26 (*Impairment of Cash-generating Assets*). Previously the municipality used the principles set out in IAS 36 to account for impairment of cash-generating assets. GRAP 21 is applied prospectively and there is no need for restatement of prior year figures as the principles in GRAP 21 and IAS 36 are similar.

37.5 GRAP 103 - Heritage Assets

The Accounting Standard for *Heritage Assets* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2013 in terms of GRAP 103.

The municipality has developed Accounting Policies to fully comply with GRAP 103 (*Heritage Assets*). Previously the municipality used the principles set out in GRAP 17 to account for impairment of cash-generating assets. Heritage Assets have been recognised retrospectively in the Annual Financial Statements.

The municipality utilised the transitional provisions under Directive 4, which allows 3 years for the measurement of Heritage Assets.

37.6 Reclassification of Property, Plant & Equipment and Heritage Assets

The prior year figures of Property, Plant & Equipment and Heritage Assets have been restated to correctly disclose the assets held by the municipality in terms of GRAP 103.

The effect of the Change in Accounting Policy is as follows:

	Property, Plant & Equipment	Heritage Assets
Balances published as at 30 June 2011 Transfer Heritage Assets	-1,686,000	- 1,686,000
Restated Balances as at 30 June 2011	-1,686,000	1,686,000

The above-mentioned changes in Accounting Policies had no effect on the Accumulated Surplus as at 30 June 2012 and the Accumulated Surplus of prior years was not affected either.

2013 2012 R R

38 CORRECTION OF ERROR

Corrections were made during the previous financial years. Details of the corrections are described below:

38.1 Allocation correction of prior year balances

The prior year figures of Accumulated Surplus has been restated to correctly disclose the monies held by the municipality in terms of the disclosure notes indicated below.

The effect of the changes are as follows:	As previously reported 2012 R	Allocation corrections 2012 R	Restated 2012 R
Assets Current assets Inventories Operating lease assets Receivables from exchange transactions - Debtors advance salaries - Debtors advance wages - Debtors advance council - Consumer Debtors - Debtors Housing - Deposits transferred to receivables from non-exchang transactions	3,006,893 (1,978) 98,012	7,351,122 -5,988 5,408 -15,244 7,377,364 71,770 -82,188	3,006,893 -1,978 7,449,134

10 Occasions during the financial year proc	uring various services a	L amounting to R113 450,88		

41.9 Bulk Electricity and Water Losses in terms of Section 125 (2)(d)(i) of the MFMA

Material Electricity and Water Losses were as follows and are not recoverable:

Electricity:

		Lost Units	Value
30 June 2013	Unaccounted Electricity Losses	10,354,175	10,541,547
30 June 2012	Unaccounted Electricity Losses	3,418,631	3,451,108

Electricity Losses occur due to *inter alia*, technical and non-technical losses (Technical losses - inherent resistance of conductors, transformers and other electrical equipment; Non-technical losses - the tampering of meters, the incorrect ratios used on bulk meters, faulty meters and illegal electricity connections). The problem with tampered meters and illegal connections is an ongoing process, with regular action being taken against defaulters. Faulty meters are replaced as soon as they are reported.

43.2 Fair Value

The following methods and assumptions were used to estimate the Fair Value of each class of Financial Instrument for which it is practical to estimate such value:

Cash and Short-term Investments

The carrying amount approximates the Fair Value because of the short maturity of these instruments.

Long-term Investments

The Fair Value of some Investments are estimated based on quoted market prices of those or similar investments. Unlisted Equity Investments are estimated using the discounted cash flow method.

Loan Receivables/Payables

Interest-bearing Borrowings and Receivables are generally at interest rates in line with those currently available in the market on a floating-rate basis, and therefore the Fair Value of these Financial Assets and Liabilities closely approximates their carrying values. Fixed interest-rate instruments are fair valued based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Trade and Other Receivables/Payables

The Fair Value of Trade and Other Payables is estimated at the present value of future cash flows.

The management of the municipality is of the opinion that the carrying value of Trade and Other Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values. The Fair Value of Trade Receivables were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.

Other Financial Assets and Liabilities

The Fair Value of Other Financial Assets and Financial Liabilities (excluding Derivative Instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

Long-term Liabilities

The Fair Value of Long-term Liabilities was determined after considering the standard terms and conditions of agreements entered into between the municipality and the relevant financing institutions.

Management considers the carrying amounts of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements to approximate their Fair Values on 30 June 2013, as a result of the short-term maturity of these assets and liabilities.

No Financial Instruments of the municipality have been reclassified during the year.

2013 2012 R R

Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities

The table below analyses Financial Instruments carried at Fair Value at the end of the reporting period by the level of fair-value hierarchy as required by GRAP 104. The different levels are based on the extent to which quoted prices are used in the calculation of the Fair Value of the Financial Instruments. The levels have been defined as follows:

Level 1:-

Fair Values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

Level 2:-

Fair Values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3:-

30 June 2013

Financial Instruments at Fair Value:

Fair Values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

43.3 Capital Risk Management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged from 2012

The capital structure of the municipality consists of debt, which includes Cash and Cash Equivalents and Equity, comprising Accumulated Surplus as disclosed in and the Statement of Changes in Net Assets.

Gearing Ratio

The gearing ratio at the year-end was as follows:

Debt	30,412,923	31,235,222
Net Debt	30,412,923	31,235,222
Equity	938,076,924	934,282,291
Net debt to equity ratio	3.24%	3.34%

Debt is defined as Long- and Short-term Liabilities.

Equity includes all Funds and Reserves of the municipality, disclosed as Net Assets in the Statement of Financial Performance and Net Debt as described above.

43.4 Financial Risk Management Objectives

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The Department Financial Services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

34.5 Further quantitative disclosures are included throughout these Annual Financial Statements.

43.5 Significant Risks

It is the policy of the municipality to disclose information that enables the user of its Annual Financial Statements to evaluate the nature and extent of risks arising from Financial Instruments to which the municipality is exposed on the reporting date.

The municipality has exposure to the following risks from its operations in Financial Instruments:

- Credit Risk;
- Liquidity Risk; and
- Market Risk.

Risks and exposures are disclosed as follows:

2013 2012 R R

Market Risk

Market Risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's income or the value of its holdings in Financial Instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Credit Risk

Credit Risk is the risk of financial loss to the municipality if a customer or counterparty to a Financial Instrument fails to meet its contractual obligations and arises principally from the municipality's receivables from customers and investment securities.

Liquidity Risk

Liquidity Risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the municipality's reputation.

Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

A maturity analysis for Financial Liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in Notes 51.8 and 51.9 to the Annual Financial Statements.

43.6 Market Risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates. No formal policy exists to hedge volatilities in the interest rate market.

There has been no change to the municipality's exposure to market risks or the manner in which it manages and measures the risk.

43.6.1 Foreign Currency Risk Management

The municipality's activities do not expose it to the financial risks of foreign currency and therefore has no formal policy to hedge volatilities in the interest rate market.

43.6.2 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with Absa Bank No investments with a tenure exceeding twelve months are made.

Consumer Debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Consumer debtors are presented net of a provision for impairment.

In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy. Consumer Deposits are increased accordingly.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

2013 2012 R R

43.7 Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

Investments/Bank, Cash and Cash Equivalents

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with Absa Bank. No investments with a tenure exceeding twelve months are made.

Trade and Other Receivables

Trade and Other Receivables are amounts owed by consumers and are presented net of impairment losses. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an on-going basis. The municipality is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. Subsequently, the municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur debt for rates, water and electricity services rendered to them.

The municipality limits this risk exposure in the following ways, in addition to its normal credit control and debt management procedures:

- The application of section 118(3) of the Municipal Systems Act (MSA), which permits the municipality to refuse connection of services whilst any amount remains outstanding from a previous debtor on the same property;
- A new owner is advised, prior to the issue of a revenue clearance certificate, that any debt remaining from the previous owner will be transferred to the new owner, if the previous owner does not settle the outstanding amount:
- The consolidation of rates and service accounts, enabling the disconnecting services for the non-payment of any of the individual debts, in terms of section 102 of the MSA:
- · The requirement of a deposit for new service connections, serving as guarantee and are reviewed annually;
- Encouraging residents to install water management devices that control water flow to households, and/or prepaid electricity meters.

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the Statement of Financial Position, without taking into account the value of any collateral obtained. The municipality has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area.

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

Payment of accounts of consumer debtors, who are unable to pay, are renegotiated as an on-going customer relationship in response to an adverse change in the circumstances of the customer in terms of the Credit Control and Debt Collection Policy.

Long-term Receivables and Other Debtors are individually evaluated annually at reporting date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings.

The table below shows the balance of the 5 major counterparties at the balance sheet date. Management is of the opinion that, although these parties are the 5 counterparties with highest outstanding balances, no significant credit risk exposure exists based on the payment history of the parties.

43.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long-term funding and liquidity manages liquidity manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Liquidity and Interest Risk Tables

The municipality ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts.

The following tables detail the municipality's remaining contractual maturity for its non-derivative **financial liabilities**. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay. The table includes both interest and principal cash flows.

43.9 Other Price Risks

The municipality is not exposed to equity price risks arising from equity investments as the municipality does not trade these investments.

2013 2012 R R

44 MULTI-EMPLOYER RETIREMENT BENEFIT INFORMATION

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

All councillors belong to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:-

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R 5,308,109.18 (30 June 2012: R 4,030,642) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The Retirement Funds have been valued by making use of the Discounted Cash Flow method of valuation.

DEFINED CONTRIBUTION SCHEMES

Cape Retirement Fund for Local Government:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2012.

The statutory valuation performed as at 30 June 2012 revealed that the assets of the fund amounted to R 10,775,599 million, with funding levels of 99,9% and 108,0% for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (9%) and the municipalities (18%) is sufficient to fund the benefits accruing from the fund in the future. The fund is certified to be in a sound financial position as at 30 June 2012.

Municipal Councillors Pension Fund:

The scheme is subject to an actuarial valuation every three years. The last statutory valuation was performed as at 30 June 2009. The latest interim valuation was performed as at 30 June 2010.

The interim valuation performed as at 30 June 2010 revealed that the assets of the fund amounted to R 1,483,786,381 (30 June 2009: R1,123,672,020). The contribution rate paid by the members (9%) and the municipalities (18,00%) is sufficient to fund the benefits accruing from the fund in the future. The fund is certified to be in a sound financial position as at 30 June 2010.

Municipal Employees Pension Fund

The scheme is subject to an actuarial valuation every three years. The last statutory valuation was performed as at 28 February 2011.

The valuation performed as at 28 February 2011 revealed that the assets of the fund amounted to R 7,544 million (28 February 2008: R 5,715 million) with funding levels of 107.9% (28 February 2008: 108.2%). The contribution rate paid by the members (7,5%) and the municipalities (15,00%) is sufficient to fund the benefits accruing from the fund in the future. The fund is certified to be finacially sound as at 28 February 2011 in the sence that it has enough assets to meet its past service liabilities, and that the surplus in the Fund exceeds the shortfall in the future service contribution rate till the next triennial valuation date.

None of the above mentioned plans are State Plans.

45.5 Purchases from Related Parties

Transactions with councillors, key mangement personnel and close family members

The municipality traded with the following companies and individuals, which are considered to be Related Parties:

Company	Municipal Capacity	Name	Amount of award R
Segopa Butchery	Councillor	F.P. Byleveld	1198
Tshela Thupa Event Managment	Councillor	M.J. Dichabe	2500
Kurara FM Radio Station	Corporate Admin Mana	54090	
			57788

The transactions were concluded in full compliance with the municipality's Supply Chain Management Policy and the transactions are considered to be at arm's length.

46 CONTINGENT LIABILITIES

46.1 Guarantees:

None

46.2 Court Proceedings:

(i) Claim for breach of contract

The plaintiff, Tresspass Security, claims R2 557 551 (2011/12: R2 557 551) together with interest and costs for breach of contract for not awarding them the security contract. The matter has been defended. Plaintiff has employs dilatory tactics by not committing to the trial date and a cost order for wasted costs was obtained against the plaintiff. The matter is still outstanding and to date there is not an application for a pre-trial conference nor has the new trial date been set. Legal costs is estimated at R380 000 (2011/12: R350 000).

- (ii) Two-fold litigation matter against the municipality namely:
- (a) Peyper Sesele attorneys was appointed to assist the municipality in converting the Deeds of grant into full-title deeds at Mothibistad. This project, as agreed with the firm of attorneys, was paid by the Cooperative Governance Human Settlement Traditional Affairs in accordance with the department's tariffs. The mandate of the firm was terminated when they failed to successfully convert the Deeds of Grant to the satisfaction of the Office of the Surveyor-General. The firm was paid R145 000 by the Department for their effort. The firm are now demanding payment of R2 000 000 (2011/12: R2 000 000) from the municipality claiming its fees on work done and time spend. The municipality is opposing the claim and defended the matter at the Northern Cape High Court. Plea has been served and a trial date is awaiting. The firm has proposed a settlement but the offer of settlement is exorbitant and the municipality has rejected it. In the absence of a reasonable offer, the matter goes to trial.
- (b) Peyper Sesele attorneys was given a mandate to obtain an interdict for the municipality against a group of community who illegally occupied land belonging to the municipality. Council later withdrew the mandate after the firm had twice failed to successfully obtained the interdict. The firm has been paid a total sum of R1 200 000 for its effort but has now issued summons demanding payment of R22 000 000. The amount has been rejected by the municipality as ridiculously high and unreasonable. The municipality has defended the matter at the Magistrates court in Kuruman. Settlement has been proposed but again the firm has come with an unreasonable offer.

Legal costs amounts to R350 000 (2011/12: R250 000) for the aforementioned two cases.

(iii) Case launched with the Northern Cape High Court

The Applicant, Leungo, launched a case with the Northern Cape High Court against the municipality when the municipality appointed Bigen Africa as consultants for the construction of the Galowe 5223 Intergrated Housing project. Leungo is alleging that they were appointed initially to handle the project and therefore intending to obtain an interdict against the proceedings with the construction of the houses. The matter has been opposed and the applicant has not yet set the matter down for hearing. Legal costs in this matter are estimated at R240 000.

Summons received - demanding payment

The Plaintiff, TEB Properties, issued a summons against the municipality demanding payment of R2 428 254 (2011/12: R2 428 254) for the purchase price of the erf and improvements made and R100 000 (2011/12: R300 000) legal costs. Both parties agreed to settle the matter out of Court and the municipality has made an offer of settlement to TEB Properties for the total amount of R4 500 000, which amount include the initial amount claimed by the plaintiff plus interest. The settlement came about after the erf was placed on a competitive bid process. The proceeds from the sale would off-set the settlement amount. The payment has yet to be made pending the registration and transfer of the property from the municipality to the successful bidder.

46.3 Insurance Claims:	99,516	48,623
(i) Alleged Damages Incurred:	99,516	48,623
Claims lodged against the municipality for alleged damages caused by incidents of which the municipality should take ownership, have been referred to the municipality's insurers.		
CONTINGENT ASSETS		
The municipality was not engaged in any transaction or event during the year under review involving Contingent Assets.		
47.1 Insurance Claims:	445,215	
(i) Lost / Damaged Assets: The municipality has claims outstanding against its Insurers for lost and/or damaged assets. Management believes that it is probable that the claims will be successful and that compensation of R445 215 (2011/12: R Nil) will be recovered.	445,215	-
47.2 Court Proceedings:		
None		
IN-KIND DONATIONS AND ASSISTANCE		
The municipality received from the Department of Environmental Affairs the following assets as donations.		
The assets was categorised in the following classes:		
Buildings	800,000	-
Computer Equipment:	16,500	-
Furniture and Fittings: Motor Vehicles:	32,700 1,192,000	-
Office Equipment:	1,192,000	-
Plant and Equipment:	132,500	-
Sub-total	2,203,500	-
Projects:	, , , , , , , , , , , , , , , , , , , ,	-
Bankara and Magojaneng Foodgardens, upgrading of ablution blocks and other control list		
items	890,250	
Total	3,093,750	

49 EVENTS AFTER THE REPORTING DATE

49.1 Court Summons:

As mentioned under contingent liabilities (note 46), the Plaintiff, TEB Properties, issued a summons against the municipality regarding erf 489 and both parties agreed to settle the matter out of Court. A settlement amount of R4, 250, 000 was agreed upon by both parties as final settlement but no payment has been made in this regard due to administration processes that must still be finalised. On 22 August 2013 the municipality received a court order for Kimberly High Court to pay TEB Properties (Pty) plus 15.5% interest per annum from 01 October 2012 to date of final payment and legal cost in this regard.

50 COMPARATIVE FIGURES

The comparative figures were restated as a result of the effect of Changes in Accounting Policies (Note 37) and Prior Period Errors (Note 38).

2013	2012

51 GOING CONCERN ASSESSMENT

Management considered the following matters relating to the Going Concern:

- (i) On 31 May 2013 the Council adopted the 2013/14 to 2015/16 Budget. This three-year Medium Term Revenue and Expenditure Framework (MTREF) to support the ongoing delivery of municipal services to residents reflected that the Budget was cash-backed over the three-year period.
- (ii) The municipality's Budget is subjected to a very rigorous independent assessment process to assess its cash-backing status before it is ultimately approved by Council.
- (iii) Strict daily cash management processes are embedded in the municipality's operations to manage and monitor all actual cash inflows and cash outflows in terms of the cash-flow forecast supporting the Budget. The cash management processes is complemented by weekly and monthly reporting, highlighting the actual cash position, including the associated risks and remedial actions to be instituted.
- (iv) As the municipality has the power to levy fees, tariffs and charges, this will result in an ongoing inflow of revenue to support the ongoing delivery of municipal services. Certain key financial ratios, such as liquidity, cost coverage, debtors' collection rates and creditors' payment terms are closely monitored and the necessary corrective actions instituted.

Taking the aforementioned into account, management has prepared the Annual Financial Statements on the Going Concern Basis.

Refer to Chief Financial Officers report paragraf 2.1 for financial statement ratios
